

CREEPY CRAWLERS

1. What is an insect? Name some.
2. How many legs to insects have? How many wings do they have? Do all insects have 2 eyes?
3. What are some things insects eat? Name one food we eat that insects make.
4. Name some places that insects live?
5. Are insects good or bad? What do they do that is good and what do they do that is bad?
6. Can you name a story in the Bible about insects? Read one.
7. Go on a nature walk and see how many insects you can find.
8. Make a craft about your favorite insect.

HELPS:

- 1.
2. 6 legs. 0-4 wings. No, some insects have more than 2 eyes.
3. Leaves, fruit, wood, and other animals. Honey.
4. Ant hills, Trees, ground, etc.
5. Some insects are good and some insects are bad. Dragonflies eat mosquitos. Termites eat the wood in our houses, and locusts eat our crops.
6. Locusts in the 10 Plagues of Egypt.
