

ROCKS AND STONES

1. Are all rocks and stones the same size and color?
2. How do you clean rocks and stones?
3.
 - A. Collect small rocks and stones.
 - B. Clean them before making your display.
 - C. Make a display box or jar with at least ten rocks and stones of different sizes, shapes, and colors.
 - D. Save the others you've collected for later projects.
4. Study the rocks and stones in your collection. Try to imagine them as parts of animals or people. What would you use the following shapes for:
 - a. Flat or triangular pieces
 - b. A long, round piece
 - c. Thick, square, and round pieces
 - d. Small pieces
5. Make a craft using your left over collection and other rocks & stones.

HELPS:

1. No, they are all different sizes, shapes, and colors.
2. Wash them with a little soap and warm water, then lay them out to dry.
