## Inspections

### Coordinator's Corner

February has been a busy month for all of us. **Keene Spanish** has had their inspection on February 9. I really enjoyed visiting with Suzanna and Toni Facundo. They are doing a great job for the Cheetahs together with their staff. On the 23<sup>rd</sup>, **Fort Worth First** had their inspection. After a stressful day, Toni and Nathan managed to pull a great inspection. Together with their staff they are building the Tigers up and providing a great environment for learning. Great job to both clubs!

The work on the website is advancing. Thanks to Alan Weis, we have a great looking website and tons of information. In an other week of so, he will have the subdomain websites working for all the clubs who have asked to have one. Once established, each club will have access to their own site to use according to their needs.

It is a pleasure to work with all of you and to get to know all of you. I feel very blessed to have Alan and Ada as Associates and you as Directors. Your support and your help make the job fun and so much easier. Veronique W.

## Area Campout 2005

Plan now for our area campout on March 18-20 that will be held at Lake Bob Sandlin State Park. The theme is "**Awesomely Made**".

We have 254 people registered for our area campout in March. We are planning a "**Treasure Hunt**" about the human body on Sabbath afternoon. On Sunday morning we are planning a **Triathlon** with **canoeing**, **bicycling**, and an **obstacle course**.

All the clubs staying through the Closing Ceremony on Sunday morning will be receiving a **Participation Ribbon** and a **surprise** to be announced then.
